

PROTOTYPE MODEL

Event Details: -

RULES AND REGULATIONS

1. Eligibility Criteria:

- Any student enrolled in a technical branch of study is eligible to participate. This competition is open to students demonstrating technical skills and innovation.

2. Registration Process:

- Registration for the competition will commence on March 22, 2025, and conclude on March 25, 2025. This timeframe allows ample opportunity for interested students to register.

3. Team Composition:

- Participants can form teams consisting of 4 to 5 members. This promotes collaboration and diverse skill sets.
- Individual students are also welcome to participate, showcasing their independent capabilities.

4. Judging Criteria:

- The prototype model presented by each team or individual will be evaluated based on the following criteria:
 - **Innovation:** The originality and novelty of the prototype's design and concept.
 - **Functionality:** The practical working capability and effectiveness of the prototype.
 - **Market Potential:** The potential for the prototype to be successfully commercialized or implemented in a real-world setting.
 - **Sustainability:** The environmental and societal impact of the prototype, including its long-term viability.

5. Prizes and Recognition:

- Exciting prizes and official certificates of recognition will be awarded to the winning teams or individuals. This acknowledges their achievements and encourages further innovation.
